The man who is signing this contract is signing it with confidence. It is for an attraction to appear at his fair in 1942, and he is confident he will get his money's worth because the attraction has been advertising regularly in *The Billboard*. He knows the attraction could not afford such advertising unless it had something good to sell. Are you doing all you should to insure a solid playing season this year? Carnivals, acts, shows

and attractions must build for the future just the same as any other business. Constant advertising repetition makes your name known—simplifies booking engagements and dates.

Buyers of carnivals, acts and attractions buy with confidence when they buy those that advertise in *The Billboard*. Inspire confidence and win acceptance for yourself by starting a campaign now.

Complacency Is a Dangerous Thing!

**A Guest Editorial by
JAMES A. GILMORE,
Secretary - Manager,
Coin Machine Industries, Inc.**

History records that the United States has never lost a war. History records that Japan has never lost a war. History is now blanking upon its pages a war between these two nations and when it is finished one or the other will have lost. It is inevitable.

We have all read of two great and outstanding football teams that have gone thru a season without the loss of a game. They are unbeaten. They have not lost. They meet for a post-season game. Each of their coaches and their trainers and their fans all declare they cannot lose. But one of them does. When the game is finished one of them has lost. Frequently the excuse or the alibi is overconfidence.

Complacency is the result of overconfidence. That's why it is a dangerous thing.

It Could Happen Here!

The Japs have a helluva jump on us. We were too complacent. We are too complacent now. We've got an awful lot of catching up to do. We are short of planes, tanks, ships, guns and ammunition and we are short of trained men to fight with them if we had them. We are short of soldiers, sailors, marines and air men.

We are short of awareness of the seriousness of the situa-

tion we now face and we are short of comprehension that it grows more serious and grave every day that passes and with every advance that our enemies are making. And our enemies are advancing every day. Do not have any doubt about it.

We are short of time and if time was ever the master of any situation it is now and it will continue to be now until we get caught up on each and every one of these shortages. —God alone knows when that may be.

We Are Not Short Of Overconfidence!

We are not short of the disposition to "let George do it." We are not short of the feeling that we can't lose because we never have. We are not short of the disposition to encourage those whose supreme efforts are being made to get things done or to encourage their manner of doing them.

We are not short of soldiers. We are not short of leaders ready and anxious to pray upon the government or upon industry in their intensely patriotic endeavors to get fighting materials and machines to the front wherever they are needed most.

Idea of the coin machine industry; yes, of every industry, let's wake up to the fact that petty hocking and differences of opinion are not going to win this war. We've got to do more than buy Defense Bonds and Stamps and contribute to the Red Cross. We've got to do more than sit and watch other industries unreservedly throw their resources of every kind and description into the making of essential war materials.

We've got to throw our energy, our intuition, our resourcefulness, our foresightfulness, our ingenuity and our determination, each and every one of those into our country's effort in win this war with the least possible delay.

Every resource at our command should be kept steadfastly pointed in this direction for the duration.

Let us not only remember Pearl Harbor and Singapore, Malaya and the Philippines, but let us also remember the biblical suggestion, "By your works you shall be known."

District Judge Charges Police With Unwise Zeal

In wartime police should have more important work than spying on gamblers.

NEW YORK, Feb. 27.—The United States district judge today charged police with "unwise zeal" in their efforts to suppress gambling in New York City.

Speaking from the bench at the Municipal Court today, Judge Charles F. Smith said that while the police have a duty to enforce the law, they should not waste their resources on "unwise" efforts to suppress gambling.

Judge Smith said that the police should concentrate on more important matters, such as the control of the city's population.

The Victory Model 950 has already proved

THE GREATEST **WURLITZER** OF THEM ALL

If you've seen it or heard it—you know it—in appearance the Victory Model 950 features illumination and animation—beauty and brilliance far beyond any Wurlitzer ever built.

When you look inside, there is just as much cause for elation. It's a true Wurlitzer—engineered to Wurlitzer standards for typical Wurlitzer service.
